Corporate Events

**Looking for a new, exciting way to entertain your staff, clients or guests?
Then look no further!**

Ideal for corporate events and private functions, dinners, receptions, product launches, conferences, weddings, concerts and lecture-recitals, our music helps create the perfect atmosphere to make your function a success.

We can provide entertainment for all types and size of corporate event. From a small, female 'upper voices' group, or small 'male barber-shop' group, to a chamber choir- we can perform a range of music to suit your needs (anything from Bach to Beatles!)- whether it's sophisticated background music for the duration of the event, or some fun, light-hearted after-dinner entertainment! You may prefer to use a single musician for your event, for example a jazz pianist, and we can arrange this for you too.

Please contact the Artistic Director to find out how we can help you organise a wonderful and memorable event!
